HOME SLICKER™ RAINSCREEN**

A VENTILATING AND SELF-DRAINING RAIN-SCREEN OFFERING A THERMAL BREAK AND MOISTURE PROTECTION FOR SIDEWALLS

Home Slicker™ is the answer for protecting wall systems from the damaging effects of moisture, wind-driven rain from the outside, moisture vapor from the home's interior, and corrosive surfactants that leak from certain types of siding, usually remaining trapped in between the siding and building paper or housewrap. Home Slicker's unique three-dimensional Nylon matrix provides a continuous space for drying, allowing moisture to escape quickly before it damages the sidewall materials.
