CORIAN®... A Solid Idea In Good Design

Self-expression starts at home

Designing the perfect room starts with the selection of the appropriate elements. Fabrics that reflect your favorite style. Paint colors that set the right mood. Textures that keep things visually exciting.

Survey the room around you; it's evident what a great first impression materials can make. And that's where CORIAN® comes in. With its innovative approach to design, it can be anything you want it to be...window-sills, furniture, moulding, even a mosaic area rug.

And, while CORIAN® is stunning in its own right, it's also compatible with granite, glass, tile, stainless steel, even wood. In fact, the marriage of comple-

mentary materials only increases your design options, providing unlimited possibilities - in terms of colors and aesthetics - to suit any lifestyle.

Go ahead. Do your own thing. Use CORIAN® in any number of ways. It's your assurance of one-of-a-kind style, of stamping your home with your personal thumbprint.
