

**DRYLOK® NON-SKID
TEXTURE ADDITIVE**

The incorporation of DRYLOK® Non-Skid Texture Additive creates a slip-resistant coating that increases traction and helps prevent falls, accidents, and injuries. Use it with **DRYLOK® E1 1-Part Epoxy Floor Paint** and other oil base, latex base, or epoxy floor paints, and clear coatings.

FEATURES:

- Formula:** pumice, mix with coating
- Location:** interior, exterior
- Where to use:** garage floors, basement floors, patios, driveways, ramps and walkways oil, latex base, or epoxy floor paints, and clear finishes
- CSI Masterformat®:** **09 61 13** SLIP-RESISTANT FLOORING TREATMENT

BENEFITS:

- Lightweight pumice additive perfect for use with high-gloss coatings or slippery films
- Will not change the drying characteristics of the paint
